SERRA GLOBAL TECHNOLOGY S.L.

ADHESIVES TAPES FOR  
CAR'S INDUSTRY

# PPI adhesives solutions

**PPI adhesive products**, is a company able to give custom quality solutions to solve problems in several and different fields.

They can offer a wide range of products due to their wide range of materials availables to reach our target.

Some typical materials they use are:

- **Film PET**
- **Film PI**
- **Glasscloth**
- **PTFE**
- **Copper**
- **Aluminium**
- **Tin clad copper**
- **Woven non woven.**
- **Foams**
- **Others...**

# PPI adhesives solutions

One of its strengths is its ability to develop special adhesives and fitted to the requirements or applications that are intended use.

They also can laminate some materials to improve the performance of all of them.

PPI can offer adhesives of:

- **Rubber adhesive**
- **Acrylic adhesive**
- **Silicone adhesive**
- **Heat activable adhesive**
- **Special adhesives**

PPI can offer adhesives which can withstand high temperatures, chemicals or special manufacturing processes.

# **PPI adhesives solutions**

On many fields, PPI offers a lot of different solutions tailor made in order to fit their products to their customers.

By this way, they are able to offer custom solutions to their customers.

Some of them would be:

- **Labelstock**
- **Printable tapes**
- **Several layers tapes**
- **Electrical tapes**
- **Solderable tapes**
- **Thermoconductive tapes**
- **Masking tapes**
- **High adhesion tapes**
- **Others...**

# PPI adhesives solutions

One of PPI strength is the capacity to supply all their products in several forms like:

- **Rolls slitted in a wished width**
- **Die cut forms fitted to customer's lay-outs.**
- **Sheets**
- **Full width rolls**

PPI develop solutions to make easier the customer's manufacturing processes. Finger lift or scored liner are some of their odds to simplify works.

*Connectors, special labels, masking tapes for chemicals/painting processes, printable die cuts foams...* are some of the products they are already selling in a car's industry.

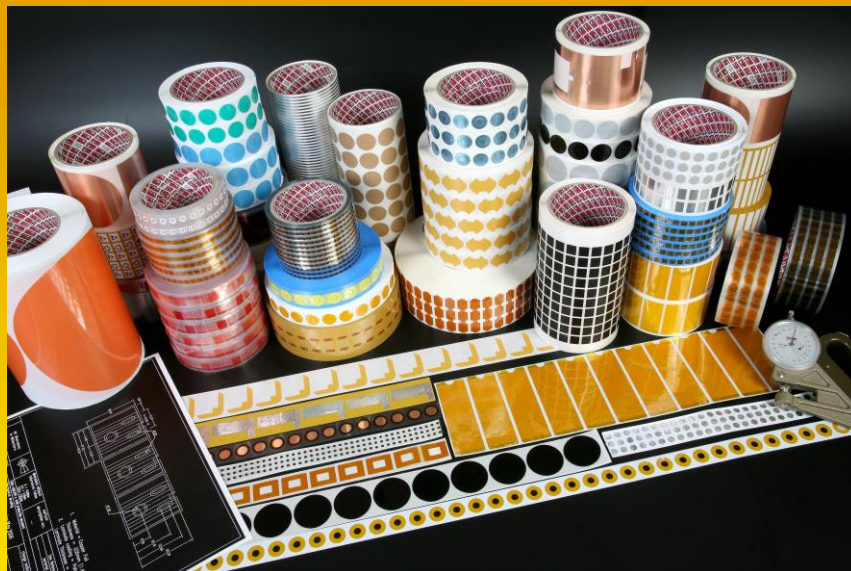

Also, PPI has ISO9001, ISO14001 certificated, some products are UL recognized and PPI is able to offer PPAP level 3.

# PPI examples

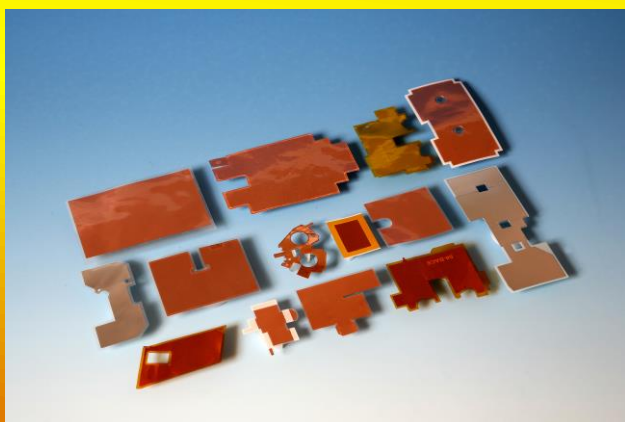

Poliimide printable labels

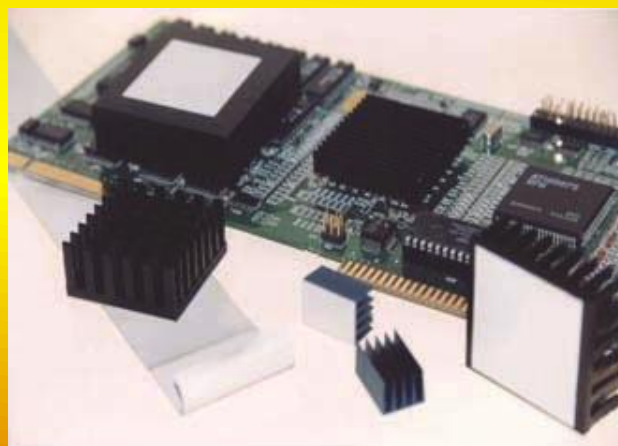

Die cut pieces of different materials

Copper, tin clad copper and aluminium tapes

Preinsulated die cut pieces of copper, tin clad copper or aluminium

Thermoconductive tapes
